C. Fiber Optic Multi-Set

Build a helicopter, dragster, and even a robotically — then watch them glow when you activate the state-of-the-art Fiber Optic System (FOS). The FOS sends a red light through the clear cables so that your models look super-charged. Build a crank on the helicopter to turn the rotor — use the same crank on the robotically to flap its wings. Then, speed the dragster across the floor and watch the piston pump. Just for fun, use the same pieces to build a speedboat and a robot. Comes with a battery box that activates the fiber optics (requires 1.9V battery not included) and instructions to build 3 models. (1 not shown). Ages 10+ 288 pieces \$94.90
